EDUCATION

University of Utah, David Eccles School of Business — Salt Lake City, UT

B.S. Finance, minor in Information Systems · GPA 3.7 · **Expected graduation May 2027**

Coursework: Financial Modeling, Database Systems (SQL), Data Analytics in Python, Corporate Finance, Machine Learning for Business

EXPERIENCE

Zions Bancorporation — Treasury & Risk Analytics Intern, Salt Lake City, UT · May 2026 – Aug 2026

- Built a Python + SQL pipeline that reconciled daily liquidity positions across 4 source systems, cutting a 3-hour manual process to 20 minutes.
- Designed Tableau dashboards on interest-rate sensitivity used weekly by the ALM committee.
- Backtested a logistic-regression early-warning model for commercial loan delinquency (scikit-learn); findings adopted into the quarterly credit review.

Goldman Sachs — Operations Summer Analyst (Salt Lake City campus) · Jun 2025 – Aug 2025

- Automated trade-break reporting in Excel VBA and Alteryx; reduced daily exceptions review time by 40%.
- Presented a process-improvement proposal to the regional operations leadership team.

University of Utah Investment Club — VP of Quantitative Research · Sep 2024 – Present

- Lead a 6-student team running factor screens in Python on a \$250K student-managed fund.
- Built the club's stock-screening web tool (Streamlit + Snowflake free tier).

PROJECTS

Credit-card fraud detector · Python, XGBoost, SQL · Kaggle dataset, 0.97 AUC; wrote a two-page memo on model risk and explainability for a non-technical audience.

Personal budgeting app · React + Plaid sandbox API · categorizes transactions with a small fine-tuned classifier.

SKILLS

Technical: Python (pandas, scikit-learn), SQL, Tableau, Excel/VBA, Alteryx, Snowflake, Git, basic React

Finance: financial modeling, ALM / liquidity risk, credit risk, Bloomberg Terminal (BMC certified)

Languages: English, Korean (fluent)

INTERESTS

Fintech, quantitative investing, trail running, K-League soccer.
